

The level of rhinoplastic surgery has increased dramatically in our specialty, and over a broad range. We therefore felt it was time for a new concept advanced rhinoplasty course in which cadaver dissection is replaced by lectures discussing treatment philosophies, technical pearls and difficult cases in our common journey to achieve consistently good and reliable results. This two day course will circulate annually between the Netherlands, Colombia and Turkey. We hope you will be able to join us at our 1st meeting in the beautiful city of Utrecht, the Netherlands.

### Koninginnedag or Queen's Day

Koninginnedag or Queen's Day is a national holiday in the Netherlands on April 30, the day after the rhinoplasty course. Queen's Day celebrates the birthday of the Queen of the Netherlands and is known for its "freemarket" all over the country, where everybody is allowed to sell things in the streets. Other activities during Queen's Day are children's games, individual musical performances, and music concerts. The largest celebration of Queen's Day is in Amsterdam and Utrecht. The night before Queen's Day, April 29, is also celebrated and called Queen's Night. During the celebrations as reference to the colours of the House of Orange-Nassau, people dress in the colour orange, which is sometimes called "orange craze".

### Grand Hotel Karel V

In 1999, Grand Hotel Karel V successfully opened its doors in one of Utrecht's most well-known listed buildings in the historic city centre. It is within 100 meter distance from the congress center and 200 meter from the center of Utrecht. For more information: [www.karelv.nl](http://www.karelv.nl).
